European trains

# PREFAZIONE

Benvenuti, ora che siete a bordo, potete anche mettervi comodi per il vostro viaggio in "prima classe".

Seguirete un itinerario insolito che vi porterà a contatto con una realtà fino ad ora sconosciuta: la scena milanese come mai l'avete vista, la stessa città che per un decennio si è evoluta soprattutto sui muri degli hall of fame, in questi ultimi anni ha visto nascere una nuova generazione di writers più attivi sul metallo e, votati a vedere il proprio nome scritto ovunque.

Riteniamo che quel che vedrete sia di importanza fondamentale per la storia di Milano: mai prima d'ora erano stati fatti whole train, o dei writers milanesi si erano spostati con l'intento di devastare le linee più potenti d'Europa.

Il viaggio potrebbe creare leggeri disturbi a quei passeggeri poco abituati, convinti che "fare i treni adesso va di moda" noi crediamo che questa sia l'unica risposta che possiamo darvi, i fatti contro una marea di chiacchiere, le conclusioni le lasciamo a voi. Ma ora basta parlare!!

..buon viaggio...

# PREFACE

Welcome, now you are on board, you can make yourself at home ready to travel on "first class".

We will follow a unusual route that's bringing you in touch with a unknown reality up to now: Milan how you've never seen, the same city that had evolved on walls of the hall of fame for a decade, had being born a new writers generation more active on metal and try to see its own name written everywhere.

We consider that how you are going to see it's very important for Milan's history: never up date, nobody have made whole train, or writers from Milan travel for ravange the more powerful european lines.

But now stop...it's the time...
